Attachments: ETBE_draft Tox Review showing changes in response to ERC_KDS3-05.24.15.docx

Hello all,

To try to keep track of the drafts, here is the draft Keith sent the end of last week with Ted's and Samantha's revised cancer section.

Best regards,

Andrew

Subject: RE: Cancer descriptor

Ted et al.,

I read the revised cancer descriptor narrative for ETBE. The version I had was clean and I read it as is and didn't compare to the previous version. Thus, I don't know how drastically different this one is from the previous version.

Overall, I think this is a nice approach with a succinct and straightforward walk through of the evidence and decisions.

I have a few comments and questions in comment bubbles. Additionally, you will see track changes that mostly reflect some reordering and combining of the text to avoid repetition in the summary statements.

Deliberative Process / Ex. 5

It would be good to see others comments on this, but I think it would be great if Ted could do this with TBA!

Thanks,
Samantha

Hi Ted,

Thanks for going through the cancer descriptor narrative. I plan to read through this today and will follow up with any comments/questions.

Thanks,
Samantha

Keith et al.,

Please find attached a draft of the revised cancer descriptor section (1.2.2) for ETBE.

I must admit upfront that I went a little bit "rogue" on my revisions to this section!

Deliberative Process / Ex. 5

Thanks in advance for any feedback you care to provide.

I'm out of the office until next Tuesday.

-Ted

Hey Ted,

Here is the most recent version of the ETBE assessment. I've taken a stab at the cancer descriptor in section 1.2.2. Section 2.3. has not been modified but needs revision. Here is the list of tasks we need accomplished for your convenience. I think we need this addressed by Thursday, if possible. Thanks.

Keith
